TESTIMONIAL

"We opened Rough Canyon Trading Company with the goal of sharing with the world our love of this part of Oklahoma. We fell in love with the raw nature and wildlife captured in Gene's photographs. Every shot has a story that we enjoy telling our customers. It is even more special that all of the photos are local to southeast Oklahoma, so tourists stopping in may see similar wildlife when they visit our local state parks and other outdoor tourist spots."

GENE BLACKWELL, UP THE CREEK WILDLIFE PHOTOGRAPHY REGISTERED CHOCTAW ARTIST

Up the Creek Wildlife Photography was born out of the desire to showcase the beauty and nature that God has painted in the heart of the Choctaw Nation. Along with an observant eye for nature's finest moments, Gene has developed his skills to produce unique, high-quality wildlife photography and landscape images capturing nature uninterrupted on his family property - Round Bottom Ranch - and along Blackfork Creek. With each image, Gene shares a piece of his home, his family and his land.
